

Commonwealth DAO

WHITEPAPER 2.0

TOMWERE 2.0

INTRODUCING PRODUCTIVE DAPPS INTO THE CRYPTO SPACE ON MULTIPLE CHAINS

Tomwere is a Web 3.0 defi solution that aims to develop dapps that are useful and profitable for long term. With inspirations from real life situation, the foundation has come together to build dapps that can schedule transactions, handle multiple signing and sending of transactions and finally develop a wallet that does not need gas fees of the native blockchain tokens to perform transactions.

WHY SHOULD YOU BUY THE TME TOKEN?

TME token exists because decentralized apps is critical to building and managing a globally dispersed community—and therefore critical to the success of the Tomwere ecosystem. The TOMWERE Improvement Proposal Process will allow its DAO members to make decisions regarding Ecosystem Fund allocations, governance rules, projects, partnerships, and beyond. The DAO membership is open to all TME holders. All early holders and presalers

will also earn passive income from our dapps as well as NFTs launched on our wallet.

UPCOMING PRODUCTS

SCHEDULE TRANSACTION DAPP

We are developing a dapp that enables transactions to be scheduled on the blockchain, sending tokens and gifts at any convenient time just got easier with a single gas fee. This feature will extend towards AI bots for easy and maximum usage.

MULTIPLE SIGNINGS AND SIMULTANEOUS TRANSACTIONS

Imagine sending different amounts of tokens to multiple and different wallets, traditionally one would have to do it one after the other. We have developed a dapp with a more convenient process to handle such hectic transactions in a cheap, easy and secure way on the blockchain.

TOM WALLET - NEW GAS FEE IDEALOGY

Our story begins here, nowadays in order to send tokens on the blockchain using a wallet, one needs to have BNB for gas as in BSC and ETH on Ethereum.

Tom wallet will introduce a new way to perform transactions having the option to use the transacting token as a means for gas for any transaction.

TOKENOMICS

The initial total supply of TOMWERE tokens (\$TME) at mainnet was 100 Million tokens.

INITIAL TOKEN DISTRIBUTION

Community (Airdrop & Sales) - 60.00%

Core Contributors - 7.00%

Foundation - 3.00%

Tomwere Pizza Miners - 15%

Staking - 11.00%

Farming & Campaigns - 4.00%

TOKEN DETAILS

Name - TOMWERE

Symbol - \$TME

Decimal - 18

Supply - 100 Million

TOMWERE PROTOCOL

TME is a governance and utility token used within the TOMWERE ecosystem to empower a decentralized community building at the forefront of web3.

→ TOMWERE was launched as the base layer to foster developments within the TOMWERE Ecosystem.

→ TME is the ecosystem's governance token, allowing TME holders to participate in DAO.

→ TME provides access to certain parts of the ecosystem that are otherwise unavailable, such as exclusive games, merch, events, and services.

→ TME is a tool for third-party developers to participate in the ecosystem by incorporating \$TME into services, games, and other projects.

Tomuere
PIZZA

TOMWERE PIZZA

WHAT IS THE PRICE OF TOMWERE PIZZA?

Pizza do not have a set price. Higher TVL more Pizza per BNB, Lower TVL less Pizza. This creates level playing field so no user can be late. There is NO calculator available to work this out.

WHAT WILL MY DAILY PERCENTAGE BE?

Daily percentage is up to 10% This depends on eating habits, the time of day you re-bake or deposit and TVL fluctuation. Average daily return is 7-10%

WHY ARE MY REWARDS NOT GROWING?

Eating habits effect rewards, you eat too much your daily percentage drops. If you only started with a small deposit it will take time to display on the dApp. Only goes to 3 decimal places. TVL daily increase can cause lower daily percentage.

WHAT HAPPENS IF I ALWAYS EAT?

If you always eat your daily percentage will drop dramatically and will not receive the highest daily returns. This is the anti-whale mechanism that preventing a whale draining the TVL

IS RE-BAKE MORE OFTEN BETTER, 2 OR 3 TIMES A DAY?

Re-baking is the same as compounding. so essentially yes. You will need to pay standard BSC gas fees for every re-bake

WHAT ARE 'PIZZA'?

Pizza are the miners that are hired with BNB and work to get your rewards. This is just a term we decided to use. Crypto OGs will know 'Pizza' as BNB

CAN I GET MY INITIAL BACK?

Tomwere Pizza Miner is a locked rewards pool, so no. You get your initial back over time through the my rewards section of the dApp

WHAT ARE THE FEES?

There is 5% marketing fee taken upon ALL deposits and withdraw from Tomwere Pizza Miner. Standard BSC network gas fees are required for EVERY transaction made deposits, withdraws and re-bake! Common issue when re-baking is no gas fees!

DO PIZZA AMOUNT DECREASE WHEN YOU EAT?

No, the 'Pizza' amount will not change. If you make a new deposit or re-bake the amount will increase but not when you eat (take rewards). The 'Pizza' are less efficient over time if you eat to much

IS THIS SUSTAINABLE?

Yes, as long as there is TVL in the contract then there will always be rewards. The hungry people who eat too much get punished and get lower and lower rewards. It will last a long time the higher the TVL gets.

WHAT IS THE BEST STRATEGY?

We recommend the tried and tested method as in it is written in the contract. Re-bake 6 days and eat 1 day a week. It will compound your investment and receive your initial back in 3-5 weeks.

WHAT PREVENTS THE DEVS FROM RUG PULL?

The contract is immutable and fully audited by Haze Security. Therefore cannot be changed or altered in any way shape or form. It is audited and verified. You can view the audit on the website.

THE 6/1 STRATEGY EXPLAINED?

It is 6 days not 6 re-bake. In those 6 days yes you can re-bake as many times desired. It is just compounding faster.

IS IT TOO LATE TO INVEST?

No, the contract is written to provide an optimal entry for any and all users, new or old. This is the reason the Pizza per BNB amount changes frequently with TVL fluctuation to provide an even playing field for any new user coming to Tom Pizza and not giving the first user/s a head start.

CAN CONTRACT FUNCTIONS BE ADDED?

No, the contract is immutable and cannot be changed. The contract works perfectly well as it is. No wallets can be blacklisted, no forcing people to re-bake 6 days and eat 1 day a week. Nothing can be changed

DOES IT HAVE AN ANTI WHALE MECHANISM?

The contract has an in-built anti-whale mechanism. This works as follows; User 1 re-Bake 6:1 gets highest daily percentage in that 24 hour period. User 2 does 5:2 gets a lower percentage. User 3 does 4:3 gets lower percentage again. This happens all the way until the user who eats continually rewards will drop to 0.5% per 24 hour period. This is to prevent 1 user draining the TVL, creating sustainability

WHAT IS THE MINIMUM DEPOSIT?

No minimum deposit requirements. If there are rewards in the "My Rewards" section and you make a new deposit both the new deposit and rewards are transferred into Pizza.

WHAT IS MINIMUM RE-BAKE?

There is no minimum re-bake requirements. You will always be charged standard BSC BEP20 gas fees for every interaction with the contract

WHAT'S THE ROADMAP LONG TERM?

Tom Pizza aims to become the largest Dapp on Binance Smart Chain. Tom Pizza will integrate with large swaps such as Pancakeswap in the near future.

Tomwere Pizza will have a plan for releasing token and airdrop to all early investors of the Pizza Miner.

DISCLAIMER

We DO NOT guarantee 10% a day if it is up to 10%. Tomwere Pizza Miner is illegal in certain countries please consider this when investing. Do not invest more than you can afford to lose

THANK YOU
